

Fig. 1

*Fig. 7*

This figure shows the device from a perspective view. The base assembly includes a main body (20) with a curved top surface (28). A handle (26) is attached to the side of the main body via a hinge (21). The handle has a grip portion (27) and a trigger finger (23) extending from its end. A spring (22) is connected between the handle and the main body. A pivot point (24) is located at the junction of the handle and the main body. The base assembly also features a series of vertical supports or pillars (31) along its length. A component (96) is shown at the bottom of the main body, possibly a foot or a mounting bracket. Other labels include 20, 21, 22, 23, 24, 26, 27, 28, 30, 31, 70, and 96.
